Art Unit: 1724

Claims 1 – 13 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 9, 10, 5, 6, 11-18, respectively, of U.S. Patent No. 6579460 to Willis et al. Although the conflicting claims are not identical, they are not patentably distinct from each other because the pending recited expression "pollutants from an aqueous stream" encompasses within its scope the issued expression, "toxins from a fluid selected from the group consisting of blood and a dialysate solution." Each of "blood" and a "dialysate solution" is a specie of the genus "aqueous stream." A toxin is a particular type of pollutant.
